## System Requirements For Lisu:

===== Required: (1) Scatter guns are used for pilot training. (2) This is an instructional and training vehicle that pilots and radar operators can practice live detection. It will be the first to deploy more than one EW pod in a variety of configurations. It also has access to its own EW pod bay doors for ingress/egress of pods. The ability to deploy three pods simultaneously makes this a unique vehicle. The facility can provide test modes that allow
